

The diagram illustrates a three-layer software architecture. It consists of three stacked rectangular boxes: a top orange box labeled 'Präsentationsschicht', a middle red box labeled 'Bussinesslogik', and a bottom purple box labeled 'Datenzugriffsschicht'. To the left of these boxes is a solid black arrow pointing downwards, labeled 'Kontrollfluss' at its tip. To the right is a dashed black arrow pointing downwards, labeled 'Abhängigkeit' at its tip. The dashed arrow's shaft passes through the three layers, indicating dependencies between them.
